TEAM, LLC – team and responsibility

UP TEAM, LLC is engaged in renting second-hand items for everyday use, based on the principle of the „library of things“.

The items are rented **directly** (depending on current measures) and **online**.

Through our activity, we want our costumers to recognize us as a **socially responsible company** that allows people with different disabilities employment and integration, in the environment, while also responding to **the environmental challenges of excessive consumption** and promoting local coexistence.

Environmentally responsible **SHARING** of things for everyday use, while promoting a better quality of **COEXISTENCE**.

How does it all work?

- You become a member of Kamnik's lumber room, when you pay a one-year membership fee of **40 € (students and pensioners: 15 €)**
- As a member, you can rent one item at a time **free of charge**, each additional rental costs 1 euro.
- If you don't return the item on time, you will have to pay 2 euros for each missed day.
- If an item is destroyed or lost, the member must replace it with a comparable item or (at least partially) compensate for the cost of the item, up to a half of the estimated value of the item.
- **All the items can also be rented without a membership fee.** In that case, the rental fee will be charged depending on the item.
- For an available time or anything else, contact us:
by telephone: **01 830 13 25** e-mail: team.cirius@gmail.com

THE OFFICE HOURS are from Monday to Friday from 8:00 to 13:00 (on Saturday and Sunday it's closed). By agreement, the pick-up of items is possible outside the office hours.

The Pentax SP 8X40 WP binoculars are an excellent representative of their class. In a powerful and relatively light metal bag, which has a multi-layered illumination and a hydrophobic coating on the lenses, efficient seals and nitrogen filling, are eight parts. In our opinion, these are the best binoculars for a tourist or hunter – they regulate their tasks in rain and snow, survive falls and swims at the depths of up to a meter. And with all that, they have bright optics, which work well in dusk and a very low distortion rate. The casing is made of rubber, so it doesn't freeze the hand of the user and it fits much more into it.
